*Notes:

1. Total returns as at 31.12.2022. Total returns are calculated based in NAV per unit, adjusted for income distribution, if any.
2. The basis of calculation for the average total return is by dividing the total return by the numbers of years.

Past performance is not necessarily indicative of future performance. Unit prices and investment returns may fluctuate.

2. MANAGER'S REPORT

The Fund has achieved its stated objective to provide regular income over a short to medium term period. For the period ended 31st December 2022, the Fund had achieved a total return of 217.88% since its inception on 28th August 2003. The benchmark return was 111.12% for the same period.

PERFORMANCE ANALYSIS

For the six-month period ended 31st December 2022, the Fund achieved a positive return of 4.10% against the benchmark return of 2.85%, resulting in an outperformance against the benchmark of 1.25%. The total NAV of the Fund had increased to RM 28,138,431 as at 31st December 2022 from RM 27,143,411 as at 30th June 2022. The increase in NAV was mainly due to the appreciation in the value of our portfolio holdings.

PERFORMANCE OF ASTUTE DANA AL-FAIZ-I VS BENCHMARK INDEX SINCE 28 AUGUST 2003 TO 31 DECEMBER 2022 ADAF-I HAS OUTPERFORMED THE BENCHMARK INDEX 106.76%

Source: Bloomberg

STRATEGIES EMPLOYED

The Fund had adopted the top-down and bottom up approach for its investment strategy. The investment policy was to invest in mostly undervalued companies with good potential of growth.

The fund consists of only in shares or warrants that were listed on the Bursa Malaysia. In term of market sector, the Fund had concentrated mainly in the areas of Industrial, Energy and Consumer sector.

Investment strategy will remain centered on well-managed liquid stocks that exhibit good growth prospects with strong earning visibility. Stocks with strong cash flows, decent yield and have proactive capital management will also be considered.

Utilities	7.7	6.8
Liquidity	16.3	13.4

MARKET REVIEW

The second half of 2022 saw an acceleration of the global rate hike cycle as central banks moved to cool inflation. The US Federal Funds Effective Rate (“US FFER”) rose from 1.21% in June to 4.100% in December. As rates rose, the US 10-year Treasury yields rose from 2.959% at the end of June to peak at 4.219% in mid-October. Between July to December, Malaysia raised the Overnight Policy Rate from 2.000% to 2.750% in attempts to keep pace with the US FFER whilst mitigating the Malaysian Ringgit’s decline against the US Dollar.

Companies and sectors with high borrowings, operating in cyclical, industrials and technology sectors and markets were hard-hit by the rising inflation and interest rates (lowering profitability), downturn in semiconductor and smartphone sales, higher bond yields (impacting stock valuations). Global chipmakers started guiding for lower sales and expansion expenditures for 2023. Amidst rising concerns of high interest rates causing economies to fall into recession, commodity prices started declining. As recession risks heightened, even production cuts in crude oil failed to sustain prices as it fell from nearly US\$130/bbl to the US\$70/bbl levels. Other commodity prices started to decline from the third quarter onwards.

In the fourth quarter of 2022, uncertainties in the run-up to Malaysia’s general elections persisted to the year-end even though the new Prime Minister gained a motion of confidence in Parliament. Reprieve was seen after global markets rebounded from intra-year lows in October after US inflation started declining as commodity prices fell, COVID-related logistics bottlenecks eased and China rapidly reversed from its zero-tolerance policy on COVID. The US Fed Fund futures also implied a peaking of US interest rates at 5.00% in the first half of 2023, prompting regional and local technology sectors to rebound in the fourth quarter of 2022.

During the period, the main sectors that outperformed the local market benchmark were consumer (rebound in spending after Malaysia relaxed travel restrictions in April 2022), financials (expansion in net interest margins from rising OPR and rebound in loans growth from economic reopening), telecommunications (finalization of fifth-generation cellular network rollout) and transportation (benefitted from the relaxation of COVID-19 travel restrictions and rebound in trade) and utilities (defensive during volatile markets).

Sectors that underperformed the market barometer in the second half of 2022 were plantation (due to weaker crude palm oil prices as supply concerns on edible oils eased), construction (lack of mega project catalysts from Malaysia’s Budget 2023), technology (weighed down by the global semiconductor downcycle and rising bond yields in the third quarter of 2022), healthcare (lower glove selling prices as COVID transitioned to endemic stage and travel restrictions were lifted), and real estate (weighed down by higher bond yields and mortgage rates).

MARKET OUTLOOK

During the earlier part of the period under review, the Fund benefitted from the rotation from “growth” stocks such as technology to “value” stocks whose underlying businesses were in primary industries. As the US Fed postured to raise rates throughout the period, growth stocks fell, whereas Malaysia, with a dominant plantation sector, became more attractive as its markets are dominated by “old economy” value plays and beneficiaries of the commodity price surges.

The Fund was underweight technology and was less impacted by the sector's sell-off. The funds exposure commodity-related sectors such as crude palm oil gained as upstream planters rewarded shareholders with higher dividends. Similarly, the fund's exposure in financials, utilities, and consumers benefited.

Going into 2023, the Fund's investment posture is positive. Based on indicators as at the end of December 2022, Malaysia remains cheap at a 2023 price-earnings ratio ("PER") of 14.6x (-1.0 standard deviation, below its 5-year average of 16.1x). Price-to-book ratio and dividend yields are also attractive at 1.4x (below the 5-year average of 1.55x) and 4.3% (above its 5Y average of 3.6%).

Additional upside catalysts for the market includes the end of the US policy rate hike cycle, falling inflation and bond yields (positive for growth equities, such as technology), and depreciating US Dollar (positive for funds flows into regional and local equities). In Malaysia, any significant reforms by the new government may be regarded positively by foreign investors and prompt a re-rating of Malaysian equities.

Aside from investing in attractively-valued companies, the Fund is expected to raise exposure to sectors linked to the China reopening (e.g. hospitality, consumer, commodities, and industrial products) and lower bond yields (e.g. real estate, technology).

SOFT COMMISSION

The Manager will retain soft commissions received from stockbrokers, provided they are of demonstrable benefit to the Unit Holders. The soft commissions may take form of goods and services such as data and quotation services, computer software and investment related publications which are incidental to the management of the Fund. Rebates, if any, will be directed to the account of the Fund.

During the period under review the Manager received data and quotation services and investment related publications which are incidental to the Fund investment.

5.5 NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

For the Six Months Financial Period Ended 31 December 2022

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Astute Dana Al-Faiz-I (formerly known as Apex Dana Al-Faiz-I) (“the Fund”) was constituted pursuant to the execution of a Deed dated 13 August 2003, Supplemental Deed dated 14 July 2004, Second Supplemental Deed dated 25 August 2004 and Third Supplemental Deed dated 20 August 2013 between the Manager, Astute Fund Management Berhad (formerly known as Apex Investment Services Berhad), the Trustee, MTrustee Berhad and the registered unitholders of the Fund. The Fourth Supplemental Deed dated 3 August 2015 entered into between the Manager and MTrustee Berhad was further modified to include a provision relating to goods and services tax. The Fifth Supplemental Deed dated 15 April 2016 was executed for the change of Trustee from MTrustee Berhad to Maybank Trustees Berhad. The Sixth Supplemental Deed dated 19 March 2018 between the Manager and the Trustee modified the permitted investment and to include provision on unitholders approval. The Seventh Supplemental Deed dated 22 April 2022 between the Manager and the Trustee modified the name of the Manager and the name of Fund.

The principal activity of the Fund is to invest in “Permitted Investments” as defined in the Appendices of the Deeds. The Fund commenced operations on 28 August 2003 (date of inception) and will continue its operations until terminated by the Trustee or the Manager as provided under Clauses 7.2 and 7.4 of the Deed.

The investment objective of the Fund is to provide regular income over a short to medium term period and an opportunity for capital appreciation by investing in a diversified portfolio of Shariah-compliant money market instruments in Malaysia and other investments that may be permitted pursuant to the provisions of the Deeds and relevant laws.

The Manager, Astute Fund Management Berhad (formerly known as Apex Investment Services Berhad), a company incorporated in Malaysia. The principal activity of the Manager is the management of unit trust and wholesale funds.

2. CHANGE OF NAME

On 24 May 2022, the Fund changed its name from Apex Dana Al-Faiz-I to Astute Dana Al-Faiz-I.

3. BASIS OF PREPARATION

The financial statements of the Fund are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies, and in compliance with Malaysian Financial Reporting Standards (“MFRSs”) and International Financial Reporting Standards (“IFRSs”).

3.1 During the current financial period, the Fund has adopted the following new accounting standards (including the consequential amendments, if any):-

MFRSs and/or IC Interpretations (Including The Consequential Amendments)

Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16: Interest Rate Benchmark Reform – Phase 2

The adoption of the above accounting standards and/or interpretations (including the consequential amendments, if any) did not have any material impact on the Fund's financial statements.

3. BASIS OF PREPARATION (CONT'D)

3.2 The Fund has not applied in advance the following accounting standards and interpretations (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board but are not yet effective for the current financial period:-

MFRSs and/or IC Interpretations (Including The Consequential Amendments)	Effective Date
MFRS 17 Insurance Contracts	1 January 2023
Amendments to MFRS 3: Reference to the Conceptual Framework	1 January 2022
Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred
Amendments to MFRS 17 Insurance Contracts	1 January 2023
Amendments to MFRS 101: Classification of Liabilities as Current or Non-current	1 January 2023
Amendments to MFRS 101: Disclosure of Accounting Policies	1 January 2023
Amendments to MFRS 108: Definition of Accounting Estimates	1 January 2023
Amendments to MFRS 112: Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 January 2023
Amendments to MFRS 116: Property, Plant and Equipment – Proceeds before Intended Use	1 January 2022
Amendments to MFRS 137: Onerous Contracts – Cost of Fulfilling a Contract	1 January 2022
Annual Improvements to MFRS Standards 2018 – 2020	1 January 2022

The adoption of the above accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) is expected to have no material impact on the financial statements of the Fund upon their initial application.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the process of applying the Fund's accounting policies, the management is not aware of any judgements that have significant effects on the amounts recognised in the financial statements.

There are also no assumptions concerning the future and other key sources of estimation of uncertainties at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

4.2 FUNCTIONAL AND PRESENTATION CURRENCY

The functional currency of the Fund is the currency of the primary economic environment in which the Fund operates.

The financial statements of the Fund are presented in Ringgit Malaysia ("RM") which is the functional and presentation currency of the Fund.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.3 INCOME RECOGNITION

(a) Dividend Income

Dividend income from investments is recognised when the right to receive dividend payment is established.

(b) Realised Gains or Losses on Sale of Investments

Realised gain or loss on the sale of an investment is recognised based on the sale proceeds less cost which is determined on the weighted average cost basis.

(c) Profit Income

Profit income is recognised on a time proportion basis taking into account the principal outstanding and the effective profit rates applicable.

4.4 INCOME TAXES

Current tax assets and liabilities are the expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss (either in other comprehensive income or directly in changes in NAV).

4.5 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised in the statement of financial position when the Fund has become a party to the contractual provisions of the instruments.

Financial instruments are classified as financial assets, financial liabilities or equity instruments in accordance with the substance of the contractual arrangement and their definitions in MFRS 132. Profit, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Fund has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

A financial instrument is recognised initially at its fair value. Transaction costs that are directly attributable to the acquisition or issue of the financial instrument (other than a financial instrument at fair value through profit or loss) are added to/deducted from the fair value on initial recognition, as appropriate. Transaction costs on the financial instrument at fair value through profit or loss are recognised immediately in profit or loss.

Financial instruments recognised in the statement of financial position are disclosed in the individual policy statement associated with each item.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 FINANCIAL INSTRUMENTS (CONT'D)

(a) Financial Assets

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value (through profit or loss, or other comprehensive income), depending on the classification of the financial assets.

Debt Instruments

(i) Amortised Cost

The financial asset is held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset. When the asset has subsequently become credit-impaired, the interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), excluding expected credit losses, through the expected life of the financial asset or a shorter period (where appropriate).

(ii) Fair Value through Other Comprehensive Income

The financial asset is held for both collecting contractual cash flows and selling the financial asset, where the asset's cash flows represent solely payments of principal and interest. Movements in the carrying amount are taken through other comprehensive income and accumulated in the fair value reserve, except for the recognition of impairment, interest income and foreign exchange difference which are recognised directly in profit or loss. Interest income is calculated using the effective interest rate method.

(iii) Fair Value through Profit or Loss ("FVPL")

All other financial assets that do not meet the criteria for amortised cost or fair value through other comprehensive income are measured at fair value through profit or loss.

The Fund reclassifies debt instruments when and only when its business model for managing those assets change.

Equity Instruments

All equity investments are subsequently measured at fair value with gains and losses recognised in profit or loss except where the Fund has elected to present the subsequent changes in fair value in other comprehensive income and accumulated in the fair value reserve at initial recognition.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 FINANCIAL INSTRUMENTS (CONT'D)

(a) Financial Assets (Cont'd)

(iii) Fair Value through Profit or Loss ("FVPL")(cont'd)

The designation at fair value through other comprehensive income is not permitted if the equity investment is either held for trading or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise.

Dividend income from this category of financial assets is recognised in profit or loss when the Fund's right to receive payment is established unless the dividends clearly represent a recovery of part of the cost of the equity investments.

(b) Financial Liabilities

(i) Financial Liabilities at FVPL

Fair value through profit or loss category comprises financial liabilities that are either held for trading or are designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. The changes in fair value of these financial liabilities are recognised in profit or loss.

(ii) Other Financial Liabilities

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), through the expected life of the financial liability or a shorter period (where appropriate).

(c) Equity Instruments

Equity instruments classified as equity are measured initially at cost and are not remeasured subsequently.

(i) Unitholders' Capital

Unitholders' capital are classified as equity and recorded at the proceeds received, net of directly attributable transaction costs.

The unitholders' contributions to the Fund meet the criteria of puttable instruments classified as equity instruments under MFRS 132 – Financial Instruments Presentation. Those criteria include:-

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 FINANCIAL INSTRUMENTS (CONT'D)

(c) Equity Instruments (CONT'D)

- the total expected cash flows from the units over its life are based on substantially on the profit or loss of the Fund.

(ii) NAV Attributable to Unitholders

NAV attributable to unitholders represents the total NAV in the statement of financial position, which is carried at the redemption amount that would be payable at the end of the reporting period if the unitholders exercised the right to redeem units of the Fund.

Units are created or cancelled at prices based on the Fund's NAV per unit at the time of the creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to the unitholders with the total issued and paid-up units as of that date.

(iii) Distributions

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a reduction from realised reserves. A proposed distribution is recognised as a liability in the period in which it is approved.

(d) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the carrying amount of the asset and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified from equity to profit or loss. In contrast, there is no subsequent reclassification of the fair value reserve to profit or loss following the derecognition of an equity investment.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

4.6 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash in hand, bank balances, demand deposits, and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value with original maturity periods of three months or less.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.7 CLASSIFICATION OF REALISED AND UNREALISED GAINS AND LOSSES

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposal of financial instruments classified as part of at fair value through profit or loss are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

4.8 IMPAIRMENT OF FINANCIAL ASSETS

The Fund recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at fair value through other comprehensive income, receivables, short-term deposits with financial institutions and cash at bank.

The expected credit loss is estimated as the difference between all contractual cash flows that are due to the Fund in accordance with the contract and all the cash flows that the Fund expects to receive, discounted at the original effective interest rate.

The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The Fund always recognises lifetime expected credit losses for receivables, short-term deposits with financial institutions and cash at bank using the simplified approach. The expected credit losses on these financial assets are estimated using a provision matrix based on the Fund's historical credit loss experience and are adjusted for forward-looking information (including time value of money where appropriate).

For all other financial instruments, the Fund recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Fund measures the loss allowance for that financial instrument at an amount equal to 12 month expected credit losses.

The Fund recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at fair value through other comprehensive income, for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

4.9 OPERATING SEGMENTS

An operating segment is a component of the Fund that engages in business activities from which it may earn income and incur expenses, including income and expenses that relate to transactions with any of the Fund's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.10 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using a valuation technique. The measurement assumes that the transaction takes place either in the principal market or in the absence of a principal market, in the most advantageous market. For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial reporting purposes, the fair value measurements are analysed into level 1 to level 3 as follows:-

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liability that the entity can access at the measurement date;

Level 2: Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs are unobservable inputs for the asset or liability.

The transfer of fair value between levels is determined as of the date of the event or change in circumstances that caused the transfer.

5. MANAGEMENT FEE

Clauses 6.1 and 6.2 of the Deed provide that the Manager is entitled to a management fee computed daily on the net asset value attributed to unitholders of the Fund at a rate not exceeding 1.5% (1/7/2021-31/12/2021 - 1.5%) per annum. The management fee recognised in the financial statements is based on 1.5% (1/7/2021-31/12/2021 - 1.5%) per annum for the financial period.

6. TRUSTEE'S FEE

Trustee is entitled to a fee at such rate as may be agreed from time to time between the Manager and the Trustee. The Trustee's fee recognised in the financial statements is computed daily at 0.05% (1/7/2021-31/12/2021 - 0.05%) per annum of the net asset value attributable to unitholders of the Fund.

7. ADMINISTRATIVE EXPENSES

Included in administrative expenses of the previous financial period was Investment Committee fees of RM6,265 (1/7/2021 – 31/12/2021 - RM6,518).

8. INCOME TAX EXPENSE

	31.12.2022 RM	31.12.2021 RM
Income tax for the financial period	4,500	3,468

Domestic income tax is calculated at the Malaysian statutory tax rate of 24% (2021 - 24%) of the estimated assessable profit for the financial period.

	<u>49,231</u>	<u>77,863</u>

Redemption money payable at the end of the previous reporting period represented amount payable to unitholders for the cancellation of units.

14. CASH AND CASH EQUIVALENTS

For the purpose of the statement of cash flows, cash and cash equivalents comprise the following:-

	31.12.2022 RM	31.12.2021 RM
Shariah-based deposits with licensed financial institutions (Note 10)	3,890,935	3,448,907
Cash at a licensed bank	673,919	854,933
	<u>4,564,854</u>	<u>4,303,840</u>

15. TOTAL EXPENSE RATIO ("TER")

	31.12.2022 %	31.12.2021 %
TER	<u>0.83</u>	<u>0.83</u>

The total expense ratio includes annual management fees, annual trustee's fees, auditors' remuneration, tax agent's fee and other administrative fees and expenses which is calculated as follows:

$$\text{TER} = \frac{(A+B+C+D+E) \times 100\%}{F}$$

A = Management fees

B = Trustee's fees

C = Auditors' remuneration

D = Tax agent's fee

E = Administrative fees and expenses

F = Average net asset value of the Fund calculated on daily basis

The average net asset value of the Fund for the financial period is RM27,199,136 (1/7/2021-31/12/2021 - RM32,419,012).

16. Portfolio Turnover Ratio ("PTR")

	31.12.2022	31.12.2021
PTR ("Times")	<u>0.18</u>	<u>0.13</u>

16. PORTFOLIO TURNOVER RATIO ("PTR") (CONT'D)

The portfolio turnover ratio is derived from the following calculation:

$$\text{PTR} = \frac{(\text{Total acquisitions for the financial period} + \text{total disposals for the financial period}) \div 2}{\text{Average net asset value of the Fund for the financial period calculated on daily basis}}$$

Where,

total acquisitions for the financial period = RM3,998,546 (1/7/2021-31/12/2021 – RM3,145,617)
total disposals for the financial period = RM5,830,000 (1/7/2021-31/12/2021 – RM5,566,781)

17. OPERATING SEGMENTS

The operating segments of the Fund are predominantly investing in quoted equity securities and management of liquid cash by investing in short term deposits.

In accordance with the asset allocation guidelines of the Fund, the Fund can have an exposure in Shariah-compliant equity and equity-related securities which shall not be more than 95% of the Fund's NAV. The minimum level of the liquid assets to be held by the Fund at all times shall not be less than 5% of the Fund's NAV.

The segmental analysis of the Fund's income, expenses, assets and liabilities are shown in the table below:-

31.12.2022

	Quoted Investments RM	Cash and liquid assets RM	Others RM	Total RM
<i>Statement of Profit or Loss and Other Comprehensive Income</i>				
Investment income	1,317,771	59,248	-	1,377,019

20. RELATED PARTY DISCLOSURES

20.1 IDENTITIES OF RELATED PARTIES

The Fund has related party relationships with its Manager, Astute Fund Management Berhad (formerly known as Apex Investment Services Berhad) and Trustees, Maybank Trustees Berhad.

20.2 In addition to the balances detailed elsewhere in the financial statements, the Fund carried out the following transactions with the related parties during the financial period:

	31.12.2022 RM	31.12.2021 RM
Astute Fund Management Berhad: (formerly known as Apex Investment Services Berhad) - management fee	<u>204,409</u>	<u>245,046</u>
Maybank Trustees Berhad: - trustee's fee	<u>6,814</u>	<u>8,168</u>

21. FINANCIAL INSTRUMENTS

The Fund's activities are exposed to a variety of market risk (including foreign currency risk, interest rate risk and equity price risk), credit risk and liquidity risk. The Fund's overall financial risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance.

21.1 FINANCIAL RISK MANAGEMENT POLICIES

The Fund's policies in respect of the major areas of treasury activity are as follows:-

(a) Foreign Currency Risk

The Fund does not have any transactions or balances denominated in foreign currencies and hence, is not exposed to foreign currency risk.

(b) Profit Rate Risk

Cash and other fixed income securities are particularly sensitive to movements in profit rates. When profit rate rises, the return on cash and the value of fixed income securities will rise whilst it will be vice versa if there is a fall, thus affecting the NAV of the Fund.

The Fund's fixed deposits with licensed banks are carried at amortised cost. Therefore, they are not subject to profit rate risk as defined in MFRS 7 since neither the carrying amounts nor the future cash flows will fluctuate because of a change in market interest rates.

The Fund's deposits with a financial institution are usually rolled-over on a daily/monthly basis.

It is the Fund's policy not to enter into interest rate swap arrangements.

Profit rate risk sensitivity

Profit rate risk sensitivity is not presented as a reasonable possible change in profit rates will not have a significant impact on the net income for the financial period.

21. FINANCIAL INSTRUMENTS (CONT'D)

21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(b) Profit Rate Risk (Cont'd)

Profit rate risk exposure

The following table analyses the Fund's profit rate risk exposure. The Fund's assets and liabilities are included at fair value and categorised by the earlier of contractual re-pricing or maturity dates:-

	0-3 months RM	Non-profit bearing RM	Total RM	Weighted average effective profit rate %
31.12.2022				
Financial Assets				
Quoted investments	-	23,533,610	23,533,610	-

21. FINANCIAL INSTRUMENTS (CONT'D)

21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(c) Particular Stock Risk

Any major price fluctuations of a particular stock invested by the Fund may adversely or favourably impact the NAV of the Fund. However, due to the diversification nature of the unit trust, the impact would not be as major as investing in one particular stock.

Particular stock risk sensitivity

Particular stock risk sensitivity analysis is not presented as reasonable possible change in the price of any stock will not have a significant impact on the net income for the financial period or equity of the Fund at the end of the reporting period.

Particular stock risk concentration

The Fund's concentration of equity price risk analysed by the Fund's equity instruments by sector is as follows:-

	31.12.2022		31.12.2021	
	RM	As a % of NAV	RM	As a % of NAV
Energy	4,295,931	15.27	3,522,370	11.03
Industrial Products & Services	3,290,793	11.70	4,263,971	13.35
Financial Services	3,176,016	11.29	2,240,349	7.02
Technology	2,598,302	9.23	7,624,324	23.88
Plantation	2,593,230	9.22	-	-
Utilities	2,159,040	7.67	2,159,040	6.76
Consumer Products & Services	1,679,728	5.97	3,501,225	10.96
REITS	1,459,170	5.19	1,571,804	4.92
Construction	1,083,674	3.85	1,853,884	5.80
Telecommunications & Media	989,280	3.52	683,100	2.14
TSR Loans	208,446	0.73	225,310	0.71
	23,533,610	83.64	27,645,377	86.57

(d) Liquidity and Cash Flow Risks

Liquidity and cash flow risks refer to the ease to convert investments into cash without significantly incurring loss in value. Stocks issued by smaller companies will face a greater chance of liquidity risk as compared to stocks issued by larger companies. When investing in stocks of smaller companies, the historical volume traded would be analysed to minimise the liquidity risk.

21. FINANCIAL INSTRUMENTS (CONT'D)

21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(e) Fund Manager's Risk

The performance of the Fund is also influenced by the expertise of the Fund Manager. The investment committee will oversee the activities and performance of the Fund Manager. There is also the risk that the Fund Manager does not adhere to the investment mandate of the Fund. The investment committee and the compliance unit hold primary functions to ensure that the Fund's investment strategy and mandate are adhered to. A compliance checklist and investment performance report shall be presented for review during the investment committee meeting.

(f) Credit Risk

The Fund's exposure to credit risk, or the risk of counterparties defaulting, arises mainly from sundry receivables.

Credit Risk Concentration Profile

The Fund does not have any major concentration of credit risk related to any individual customer or counterparty.

Exposure to Credit Risk

As the Fund does not hold any collateral, the maximum exposure to credit risk is represented by the carrying amount of the financial assets as at the end of the reporting period.

Assessment of Impairment Losses

At each reporting date, the Fund assesses whether any of the financial assets at amortised cost, are credit impaired.

The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery (i.e. the debtor does not have assets or sources of income to generate sufficient cash flows to repay the debt) despite the fact that they are still subject to enforcement activities.

Receivables

The Fund applies the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all receivables.

The expected loss rates are based on the payment profiles of sales over a period of 12 months from the measurement date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle their debts.

21. FINANCIAL INSTRUMENTS (CONT'D)

21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(f) Credit Risk (Cont'd)

Receivables (Cont'd)

The information about the exposure to credit risk and the loss allowances calculated under MFRS 9 for receivables is summarised below:-

	Gross Amount RM	Individual Impairment RM	Collective Impairment RM	Carrying Amount RM
31.12.2022				
Current (not past due)	124,938	-	-	124,938
31.12.2021				
Current (not past due)	183,999	-	-	183,999

Deposits with Licensed Banks and Cash at Bank

The Fund considers the banks and financial institutions have low credit risks. In addition, some of the bank balances are insured by Government agencies. Therefore, the Fund is of the view that the loss allowance is immaterial and hence, it is not provided for.

(g) Shariah Specific Risk

The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah compliant. Should the situation arise, necessary steps shall be taken to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

21.2 CAPITAL RISK MANAGEMENT

The Manager of the Fund manages the capital of the Fund by maintaining an optimal capital structure so as to support its businesses and maximise unitholders value. To achieve this objective, the Manager may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to unitholders or undertake a unit splitting exercise to lower the value per unit of the Fund, thus the units become more affordable to raise more funds.

21. FINANCIAL INSTRUMENTS (CONT'D)

21.5 FAIR VALUE OF FINANCIAL INSTRUMENTS

Other than those disclosed below, the fair values of the financial assets and financial liabilities of the Fund which are maturing within the next 12 months approximated their carrying amounts due to the relatively short-term maturity of the financial instruments. The fair values are included in level 2 of the fair value hierarchy.

	Fair Value of Financial Instruments Carried At Fair Value			Total Fair Value RM	Carrying Amount RM
	Level 1 RM	Level 2 RM	Level 3 RM		
31.12.2022					
<u>Financial Asset</u>					
Quoted investments	23,533,610	-	-	23,533,610	23,533,610
31.12.2021					
<u>Financial Asset</u>					
Quoted investments	27,645,377	-	-	27,645,377	27,645,377

The Fund measures its quoted investments that are classified as financial assets at their fair values, determined at their quoted closing prices at the end of the reporting period. These financial assets belong to level 1 of the fair value hierarchy.

In regard to financial instruments carried at fair value, there were no transfer between level 1 and level 2 during the financial period.
