## 1. FUND INFORMATION

|                                   |   |
|-----------------------------------|---|
| <b>FUND NAME</b>                  | Astute Dana Aslah (ADA)   |
| <b>FUND TYPE</b>                  | Growth and Income   |
| <b>FUND CATEGORY</b>              | Mixed Asset (Islamic)   |
| <b>FUND INVESTMENT OBJECTIVE</b>  | To invest in stock listed on the Bursa Malaysia Main Market and to allow the Fund Manager to invest in equity, up to 100% of the Net Asset Value (NAV) of the Fund, subject to a minimum investment of 40% of the NAV, in stocks or fixed income instruments or any other form of investment instruments which provided regular payments of dividends or its equivalent and permitted by the Securities Commission, which comply with the Shariah principle.  |
| <b>DURATION OF FUND</b>           | The fund is an open-ended fund.<br>The fund was launched on 12 April 2010.  |
| <b>FUND PERFORMANCE BENCHMARK</b> | Weighted average of: <ul style="list-style-type: none"> <li>❖ 60% of FBM Emas Shariah Index (“FMBS”)</li> <li>❖ 40% of 12 months Maybank General Investment Account (“GIA”) rate</li> </ul> (Source: Bursa Malaysia and Maybank Berhad)<br><br><i>“The risk profile of the performance benchmark is not the same as the risk profile of the Fund.”</i>  |
| <b>FUND DISTRIBUTION POLICY</b>   | Subject to availability of distribution surplus and approval of the Trustee, the Fund may make annual distribution. The amount of income available for distribution, after deducting expenses incurred by the Fund, may fluctuate from year to year.<br><br>Generally, in the absence of written instructions from the Unit holders, income for the Fund will be automatically reinvested into additional Units of the Fund at NAV per Unit on income payment date. Unit holders who wish to realise any income can do so by redeeming Units held in the Fund.<br><br>For reinvestment into additional units, no sales charges will be imposed. |

## 2. FUND PERFORMANCE

\*Notes:

1. Total returns as at 31.12.2023. Total returns are calculated based in NAV per unit, adjusted for income distribution, if any.
2. The basis of calculation for the average total return is by dividing the total return by the numbers of years.

**Past performance is not necessarily indicative of future performance. Unit prices and investment returns may fluctuate.**

### 3. MANAGER’S REPORT

#### FUND’S OBJECTIVE ACHIEVEMENTS

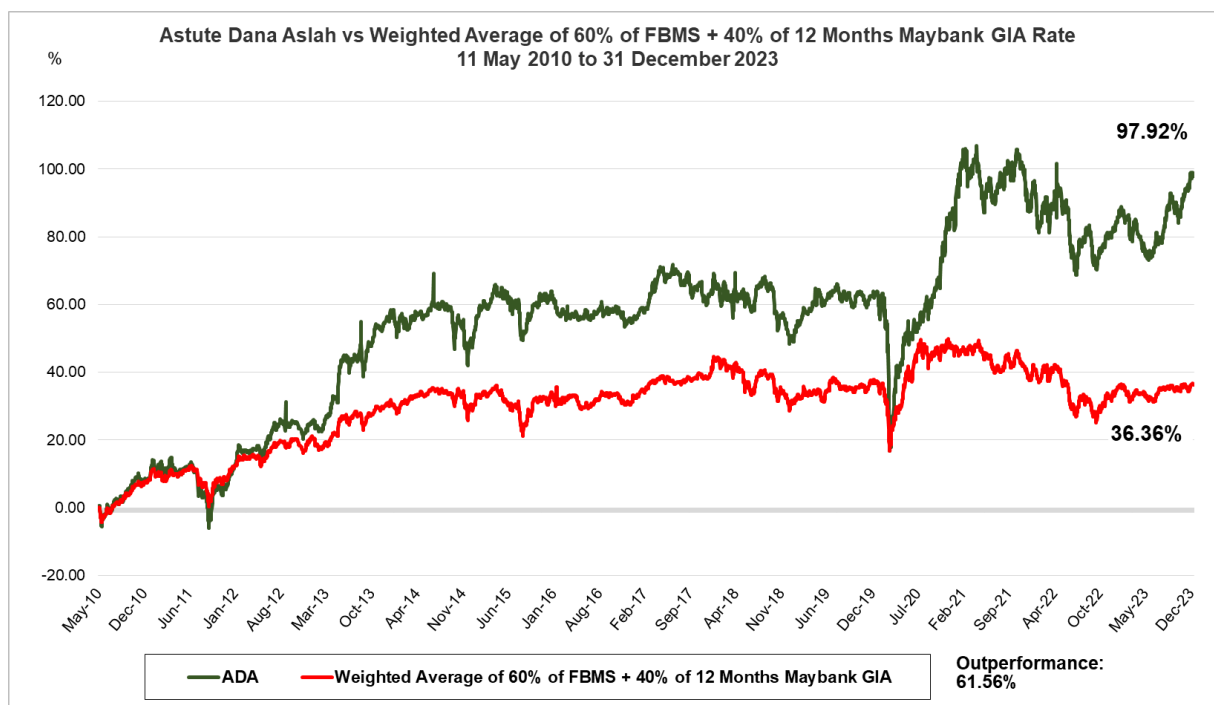

The Fund has achieved its stated objective to invest in stocks listed in Bursa Malaysia Main Market and to allow the Fund Manager to invest in equity up to 100% of NAV of the Fund, subject to a minimum investment of 40% of the NAV, in stocks or fixed income instruments or any other form of investment instruments which provided regular payments of dividends or its equivalent and permitted by the Securities Commission which comply with the Shariah principles.

For the period ended 31<sup>st</sup> December 2023, the Fund had achieved a total return of 97.92% since 11<sup>th</sup> May 2010. The benchmark return was 36.36% for the same period.

#### PERFORMANCE ANALYSIS

For the six-month period ended 31<sup>st</sup> December 2023, the Fund had achieved a positive return of 12.95% against the benchmark return of 3.91%, resulting in the outperformance against the benchmark of 9.04%. The total NAV of the Fund increased to RM 6,843,898 as at 31<sup>st</sup> December 2023 from RM 6,433,618 as at 30<sup>th</sup> June 2023. The increase on NAV was mainly due to subscription by unit holders and investment gain generated during the period under review.

## STRATEGIES EMPLOYED

The Fund had adopted the top-down and bottom up approach for its investment strategy. The investment policy was to invest in mostly undervalued companies with good potential of growth.

The fund consists of only in shares or warrants that were listed on the Bursa Malaysia. In term of market sector, the Fund had concentrated mainly in the areas of Consumer, Plantation, and Industrial Products.

Investment strategy will remain centered on well-managed liquid stocks that exhibit good growth prospects with strong earning visibility. Stocks with strong cash flows, decent yield and have proactive capital management will also be considered.

## MARKET REVIEW

Markets entered into the second half of the calendar year 2023 with the spectre of recession fears. This came about after the US Federal Reserve Committee (FOMC) hike the US policy rate by three times, totalling 75 basis points in the first half of calendar year 2023. In August, the US FOMC raised rates by another 25 bps to combat inflation, but inevitably heightened the risk of recession.

The threat of recession weighed on commodity prices, notably in agriculture, petrochemical and industrial metals. Geopolitics also weighed on local and regional markets. Military tensions between China and Taiwan and bans in exports of technologically-sensitive materials and components between China and US added to regional volatility. Amidst the tensions, the lack of policy stimulus in China failed to ignite global and regional demand for products and materials from the rest of Asia.

As policy rates rose further, the US 10-year Treasury yields rose above 5.00% in October. Notwithstanding the above, interest in Malaysia garnered more attention among foreign investors in the second half of 2023. In the last six months, Malaysia posted net foreign inflows in five out of the past six months. From a macro (top-down) standpoint, the inflows were in line with offshore investors' posturing for stronger Asian currencies as the US interest rates peak and a broad US Dollar decline is expected to materialise.

There were also bottom-up driven catalysts that sparked interest in Malaysia in the second half. The conclusion of state elections with a status quo outcome alleviated concerns on political uncertainty and execution of federal government-led initiatives. Hence, pump-priming measures picked up (e.g. infrastructure projects like rail network and road), the National Energy Transition Roadmap (NETR), and joint ventures with foreign multinationals on data centers in Malaysia were among the drivers for construction, property and building material sectors' rallies. These offset the global recessionary concerns.

## MARKET OUTLOOK

Despite fears of global recession, Bloomberg consensus estimates the global and Malaysian economies will continue growing, and are expected to avert recessions. A key premise in averting recession is interest rate cuts and looser monetary conditions in the year ahead.

Based on falling US inflation rates, global and local interest rates have peaked later in 2023. The US interest rate futures market is indicating cuts in interest rates in later in 2024 and going into 2025. We expect Malaysia to follow the global rate cut cycle if this materialises.

Given that developed economies had raised rates by a wider margin against Asian economies, we expect the former's rate cuts to be more pronounced. We expect this will eventually lead to sharper US Dollar declines against Asian currencies, which will bring foreign fund flows into the region and Malaysia.

Falling bond yields that accompany lower interest rates outlook is positive for the technology sector. This sector is also at an inflexion point as the global semiconductor is ticking up and the outlook is promising given the increasing demand for products linked to artificial intelligence, electric vehicles, and new smartphone models. Falling bond yields is also positive for dividend-yielding stocks, which we expect will perform well when central banks signal rate cuts.

We also expect domestic and policy-driven catalysts to drive markets higher. China's commitment to resuscitate its economy through private sector participation in infrastructure, ease property-related restrictions, and support e-commerce platforms' growth is expected to spur consumption and direct investments. This will draw demand for commodities and exports to China, benefiting the region and the rest of the world.

Similarly, Malaysia's potential re-initiation of megaprojects such as the Malaysia-Singapore high speed rail, and the development of the Johor-Singapore special economic zone may also catalyse the construction and building materials industry further, benefiting contractors and suppliers. Domestic sectors like energy, utilities, consumer discretionary, construction and building materials are preferred exposures as the government pump-prime economies amidst a challenging global economic environment.

## **DISTRIBUTIONS**

For the financial period under review, the Fund did not declare any income distribution.

## **STATE OF AFFAIRS OF THE FUND**

There were no significant changes in the state of affairs of the Fund during the financial period and up until the date of the manager's report, not otherwise disclosed in the financial statements.

## **SECURITIES FINANCING TRANSACTIONS**

The Fund has not undertaken any securities lending and repurchase transactions during the financial period under review.

## **DETAILS OF ANY UNIT SPLIT EXERCISE**

The Fund did not carry out any split exercise during the financial period under review.

## **CROSS TRADE**

During the financial period under review, no cross-trade transactions were undertaken by the Manager for the Fund.

## **SOFT COMMISSION**

The Manager will retain soft commissions received from stockbrokers, provided they are of demonstrable benefit to the Unit Holders. The soft commissions may take form of goods and services such as data and quotation services, computer software and investment related publications which are incidental to the management of the Fund. Rebates, if any, will be directed to the account of the Fund.

During the period under review the Manager received data and quotation services and investment related publications which are incidental to the Fund investment.

## 6.5 NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

For The Six Months Financial Period Ended 31 December 2023

### 1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Astute Dana Aslah (“the Fund”) was constituted pursuant to the execution of a Deed dated 10 August 2000, First Supplemental Deed dated 23 February 2010, Second Supplemental Deed dated 25 April 2014, Third Supplemental Deed dated 3 August 2015 and Fourth Supplemental Deed dated 19 March 2018 (collectively referred to as “the Deeds”) between the Manager, Astute Fund Management Berhad, the Trustee, CIMB Commerce Trustee Berhad and the registered unitholders of the Fund. The Fifth Supplement Deed dated 22 April 2022 between the Manager and the Trustee modified the name of the Manager and the name of Fund. By a Sixth Supplemental Deed dated 11 January 2023 between the Manager and the Trustee, the Principal Deed was further modified to provide for the participation of Unit Holders in a Unit Holders’ meeting by any electronic communication facilities or technologies available and bring it in line with changes to the relevant laws. As declared in Section 3 of the First Schedule to the Supplemental Deed, the Fund is a unit trust scheme to be managed and administered in accordance with Shariah Principles.

The principal activity of the Fund is to invest in ‘Permitted Investments’ as defined in the Fifth Schedule of the Deeds. The Fund commenced operations on 18 September 2000 (date of inception) and will continue its operations until terminated by the Trustee or the Manager as provided under Clauses 13.1, 13.2, 13.3 and 13.4 of the Deeds.

The investment objective of the Fund is to invest in stocks listed under the Bursa Malaysia Main Market. The Fund Manager is allowed to invest in equity up to 100% of the NAV of the Fund. The investment mandate is further subjected to a minimum investment of 40% of the NAV, in stocks or fixed income instruments or any other form of investment instruments which provide regular payments of dividends or its equivalent and permitted by the Securities Commission, which comply with Shariah Principles. The Manager is Astute Fund Management Berhad, a company incorporated in Malaysia. The principal activity of the Manager is the management of unit trust and wholesale funds.

### 2. BASIS OF PREPARATION

The financial statements of the Fund are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies, and in compliance with Malaysian Financial Reporting Standards (“MFRSs”) and International Financial Reporting Standards (“IFRSs”).

- 2.1 During the current financial period, the Fund has adopted the following new accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any):-

#### **MFRSs and/or IC Interpretations (Including The Consequential Amendments)**

MFRS 17 Insurance Contracts

Amendments to MFRS 17 Insurance Contracts

Amendment to MFRS 17: Initial Application of MFRS 17 and MFRS 9 – Comparative Information

Amendments to MFRS 101: disclosure of Accounting Policies

Amendments to MFRS 108: Definition of Accounting Estimates

Amendments to MFRS 112: Deferred Tax related to Assets and Liabilities arising from a Single Transaction

Amendments to MFRS 112: International Tax Reform – Pillar Two Model Rules

## 2. BASIS OF PREPARATION (CONT'D)

- 2.1 The adoption of the above accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) did not have any material impact on the Fund's financial statements.
- 2.2 The Fund has not applied in advance the following accounting standards and/or interpretations (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board (MASB) but are not yet effective for the current financial period: -

| <b>MFRSs and/or IC Interpretations (Including The Consequential Amendments)</b>   | <b>Effective Date</b> |
|---|-----------------------|
| Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture | Deferred              |
| Amendments to MFRS 16: Lease Liability in a Sale and Leaseback  | 1 January 2024        |
| Amendments to MFRS 101: Classification of Liabilities as Current or Non-current   | 1 January 2024        |
| Amendments to MFRS 101: Non-current Liabilities with Covenants  | 1 January 2024        |
| Amendments to MFRS 107 and MFRS 7: Supplier Finance Arrangements  | 1 January 2024        |
| Amendments to MFRS 121: Lack of Exchangeability   | 1 January 2025        |

The adoption of the above accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) is expected to have no material impact on the financial statements of the Fund upon their initial application.

## 3. SIGNIFICANT ACCOUNTING POLICIES

### 3.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the process of applying the Fund's accounting policies, the management is not aware of any judgements that have significant effects on the amounts recognised in the financial statements.

There are also no assumptions concerning the future and other key sources of estimation of uncertainties at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

### 3.2 FUNCTIONAL AND PRESENTATION CURRENCY

The functional currency of the Fund is the currency of the primary economic environment in which the Fund operates.

The financial statements of the Fund are presented in Ringgit Malaysia ("RM") which is the functional and presentation currency of the Fund.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.3 INCOME RECOGNITION

##### (a) Dividend Income

Dividend income from investments is recognised when the right to receive dividend payment is established.

##### (b) Realised Gains or Losses on Sale of Investments

Realised gain or loss on the sale of an investment is recognised when the sale is contracted, based on the sale proceeds less cost which is determined on the weighted average cost basis.

##### (c) Profit Income

Profit income is recognised on a time proportion basis taking into account the principal outstanding and the effective profit rates applicable.

#### 3.4 INCOME TAXES

Current tax assets and liabilities are expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss (either in other comprehensive income or directly in changes in NAV).

#### 3.5 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised in the statement of financial position when the Fund has become a party to the contractual provisions of the instruments.

Financial instruments are classified as financial assets, financial liabilities or equity instruments in accordance with the substance of the contractual arrangement and their definitions in MFRS 132. Profit, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Fund has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

A financial instrument is recognised initially at its fair value. Transaction costs that are directly attributable to the acquisition or issue of the financial instrument (other than a financial instrument at fair value through profit or loss) are added to/deducted from the fair value on initial recognition, as appropriate. Transaction costs on the financial instrument at fair value through profit or loss are recognised immediately in profit or loss.

Financial instruments recognised in the statement of financial position are disclosed in the individual policy statement associated with each item.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.5 FINANCIAL INSTRUMENTS (CONT'D)

##### (a) Financial Assets

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value (through profit or loss, or other comprehensive income), depending on the classification of the financial assets.

##### *Debt Instruments*

##### (i) Amortised Cost

The financial asset is held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset. When the asset has subsequently become credit-impaired, the interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), excluding expected credit losses, through the expected life of the financial asset or a shorter period (where appropriate).

##### (ii) Fair Value through Other Comprehensive Income

The financial asset is held for both collecting contractual cash flows and selling the financial asset, where the asset's cash flows represent solely payments of principal and interest. Movements in the carrying amount are taken through other comprehensive income and accumulated in the fair value reserve, except for the recognition of impairment, interest income and foreign exchange difference which are recognised directly in profit or loss. Interest income is calculated using the effective interest rate method.

##### (iii) Fair Value through Profit or Loss (FVPL)

All other financial assets that do not meet the criteria for amortised cost or fair value through other comprehensive income are measured at fair value through profit or loss.

The Fund reclassifies debt instruments when and only when its business model for managing those assets change.

##### *Equity Instruments*

All equity investments are subsequently measured at fair value with gains and losses recognised in profit or loss except where the Fund has elected to present the subsequent changes in fair value in other comprehensive income and accumulated in the fair value reserve at initial recognition.

The designation at fair value through other comprehensive income is not permitted if the equity investment is either held for trading or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.5 FINANCIAL INSTRUMENTS (CONT'D)

##### (a) Financial Assets (Cont'd)

###### *Equity Instruments (Cont'd)*

Dividend income from this category of financial assets is recognised in profit or loss when the Fund's right to receive payment is established unless the dividends clearly represent a recovery of part of the cost of the equity investments.

##### (b) Financial Liabilities

###### (i) Financial Liabilities at FVPL

Fair value through profit or loss category comprises financial liabilities that are either held for trading or are designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. The changes in fair value of these financial liabilities are recognised in profit or loss.

###### (ii) Other Financial Liabilities

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), through the expected life of the financial liability or a shorter period (where appropriate).

##### (c) Equity Instruments

Equity instruments classified as equity are measured at cost and are not remeasured subsequently.

###### (i) Unitholders' Capital

Unitholders' capital is classified as equity and recorded at the proceeds received, net of directly attributable transaction costs.

The unitholders' contributions to the Fund meet the criteria of puttable instruments classified as equity instruments under MFRS 132 – Financial Instruments Presentation. Those criteria include:-

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.5 FINANCIAL INSTRUMENTS (CONT'D)

##### (c) Equity Instruments (Cont'd)

###### (i) Unitholders' Capital (Cont'd)

- there is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based on substantially on the profit or loss of the Fund.

###### (ii) NAV Attributable to Unitholders

NAV attributable to unitholders represents the total NAV in the statement of financial position, which is carried at the redemption amount that would be payable at the end of the reporting period if the unitholders exercised the right to redeem units of the Fund.

Units are created or cancelled at prices based on the Fund's NAV per unit at the time of the creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to the unitholders with the total issued and paid-up units as of that date.

###### (iii) Distributions

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a reduction from realised reserves. A proposed distribution is recognised as a liability in the period in which it is approved.

##### (d) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the carrying amount of the asset and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified from equity to profit or loss. In contrast, there is no subsequent reclassification of the fair value reserve to profit or loss following the derecognition of an equity investment.

#### 3.6 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash in hand, bank balances, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value with original maturity periods of three months or less.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.7 CLASSIFICATION OF REALISED AND UNREALISED GAINS AND LOSSES

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposal of financial instruments classified as part of at fair value through profit or loss are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

#### 3.8 IMPAIRMENT OF FINANCIAL ASSETS

The Fund recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at fair value through other comprehensive income, receivables, short-term deposits with financial institutions and cash at bank.

The expected credit loss is estimated as the difference between all contractual cash flows that are due to the Fund in accordance with the contract and all the cash flows that the Fund expects to receive, discounted at the original effective interest rate.

The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The Fund always recognises lifetime expected credit losses for receivables, short-term deposits with financial institutions and cash at bank using the simplified approach. The expected credit losses on these financial assets are estimated using a provision matrix based on the Fund's historical credit loss experience and are adjusted for forward-looking information (including time value of money where appropriate).

For all other financial instruments, the Fund recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Fund measures the loss allowance for that financial instrument at an amount equal to 12 month expected credit losses.

The Fund recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at fair value through other comprehensive income, for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

#### 3.9 OPERATING SEGMENTS

An operating segment is a component of the Fund that engages in business activities from which it may earn income and incur expenses, including income and expenses that relate to transactions with any of the Fund's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.10 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using a valuation technique. The measurement assumes that the transaction takes place either in the principal market or in the absence of a principal market, in the most advantageous market. For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial reporting purposes, the fair value measurements are analysed into level 1 to level 3 as follows:-

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liability that the entity can access at the measurement date;

Level 2: Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs are unobservable inputs for the asset or liability.

The transfer of fair value between levels is determined as of the date of the event or change in circumstances that caused the transfer.

#### 4. MANAGEMENT FEE

Clause 14.1 of the Deed provides that the Manager is entitled to a management fee computed daily on the net asset value attributed to unitholders of the Fund at a rate not exceeding 2.0% (1/7/2022 - 31/12/2022 - 2.0%) per annum. The management fee recognised in the financial statements is based on 1.95% (1/7/2022-31/12/2022 - 1.95%) per annum for the financial period.

#### 5. TRUSTEE'S FEE

Clause 14.2 of the Deed provides that the Trustee is entitled to a fee at such rate as may be agreed from time to time between the Manager and the Trustee at a rate not exceeding 0.20% (1/7/2022 - 31/12/2022 - 0.20%) per annum. The Trustee's fee recognised in the financial statements is computed daily at 0.10% (1/7/2022 - 31/12/2022 - 0.10%) per annum of the net asset value attributable to unitholders of the Fund.

#### 6. INCOME TAX EXPENSE

|                                     | <b>31.12.2023</b> | <b>31.12.2022</b> |
|-------------------------------------|-------------------|-------------------|
|                                     | RM                | RM                |
| Income tax for the financial period | 939               | 1,683             |

Domestic income tax is calculated at the Malaysian statutory tax rate of 24% (2022 - 24%) of the estimated assessable profit for the financial period.

| Balance as at end of the financial period   | <u>4,768,643</u>  | <u>2,038,286</u>  |

**9.3 UNREALISED RESERVE - NON-DISTRIBUTABLE**

|   | <b>31.12.2023</b>  | <b>31.12.2022</b> |
|---|--------------------|-------------------|
|   | RM                 | RM                |
| Balance as at beginning of the financial period   | (3,731,765)        | (413,381)         |
| Net unrealised gains on valuation of equity securities<br>transferred from realised reserve | 956,439            | 104,156           |
| Balance as at end of the financial period   | <u>(2,775,326)</u> | <u>(309,225)</u>  |

**10. SUNDRY PAYABLE AND ACCRUALS**

|                          | <b>31.12.2023</b> | <b>31.12.2022</b> |
|--------------------------|-------------------|-------------------|
|                          | RM                | RM                |
| Accrued expenses         | 3,930             | 14,323            |
| Redemption money payable | 67,689            | -                 |
|                          | <u>71,619</u>     | <u>14,323</u>     |

Redemption money payable at the end of the previous reporting period represented amount payable to unitholders for the cancellation of units.

**11. CASH AND CASH EQUIVALENTS**

For the purpose of the statement of cash flows, cash and cash equivalents comprise the following:-

|   | <b>31.12.2023</b> | <b>31.12.2022</b> |
|---|-------------------|-------------------|
|   | RM                | RM                |
| Shariah-based deposits with licensed financial institutions | -                 | 804,066           |
| Cash at a licensed bank                                     | 628,728           | 327,502           |
|   | <u>628,728</u>    | <u>1,131,568</u>  |

**12. TOTAL EXPENSE RATIO ("TER")**

|     | <b>31.12.2023</b> | <b>31.12.2022</b> |
|-----|-------------------|-------------------|
|     | %                 | %                 |
| TER | <u>1.20</u>       | <u>1.16</u>       |

The total expense ratio includes annual management fee, annual trustee's fee, auditors' remuneration and other administrative fee and expenses which is calculated as follows:

$$\text{TER} = \frac{(A+B+C+D+E) \times 100\%}{F}$$

A = Management fee

B = Trustee's fee

C = Auditor's remuneration

D = Tax agent's fee

E = Administrative fees and expenses

F = Average net asset value of the Fund calculated on daily basis

The average net asset value of the Fund for the financial period is RM6,675,194 (01/07/2022-31/12/2022 – RM6,902,277).

**13. PORTFOLIO TURNOVER RATIO ("PTR")**

|               | <b>31.12.2023</b> | <b>31.12.2022</b> |
|---------------|-------------------|-------------------|
| PTR ("Times") | 0.42              | 0.22              |

The portfolio turnover ratio is derived from the following calculation:

$$\text{PTR} = \frac{(\text{Total acquisition for the financial period} + \text{total disposals for the financial period}) \div 2}{\text{Average net asset value of the Fund for the financial period calculated on daily basis}}$$

Where,

total acquisitions for the financial period = RM2,792,928 (01/07/2022-31/12/2022 – RM 965,447)

total disposals for the financial period = RM2,832,365 (01/07/2022-31/12/2022 – RM2,131,427)

## 14. OPERATING SEGMENTS

Operating segments of the Fund are predominantly investing in quoted equity securities and management of liquid cash by investing in short term deposits.

In accordance with the asset allocation guidelines of the Fund, the Fund can have an exposure in equity and equity-related securities up to 100% and a minimum investment of 40% of the Fund's NAV.

The segmental analysis of the Fund's income, expenses, assets and liabilities are shown in the table below:

|  | Equity<br>Securities<br>RM | Cash and<br>liquid<br>assets<br>RM | Others<br>RM | Total<br>RM |
|--|----------------------------|------------------------------------|--------------|-------------|

|  | <b>31.12.2023</b> |         | <b>31.12.2022</b> |    |
|--|-------------------|---------|-------------------|----|
|  | Units             | RM      | Units             | RM |
| Person connected to the Shareholder of the Manager | 133,840           | 121,299 | -                 | -  |

**18. FINANCIAL INSTRUMENTS**

The Fund's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Fund's business whilst managing its market risk (including foreign currency risk, profit rate risk and equity price risk), credit risk and liquidity risk.

**18.1 FINANCIAL RISK MANAGEMENT POLICIES**

The policies in respect of the major areas of treasury activity are as follows:-

**(a) Foreign Currency Risk**

The Fund does not have any transactions or balances denominated in foreign currencies and hence is not exposed to foreign currency risk.

**(b) Profit Rate Risk**

Cash and other fixed income securities are particularly sensitive to movements in profit rates. When profit rate rises, the return on cash and the value of fixed income securities will rise whilst it will be vice versa if there is a fall, thus affecting the NAV of the Fund.

The Fund's fixed deposits with licensed banks are carried at amortised cost. Therefore, they are not subject to profit rate risk as defined in MFRS 7 since neither the carrying amounts nor the future cash flows will fluctuate because of a change in market interest rates.

The Fund's deposits with a financial institution are usually rolled-over on a daily/monthly basis.

It is the Fund's policy not to enter into interest rate swap arrangements.

**Profit rate risk sensitivity**

Profit rate risk sensitivity is not presented as a reasonable possible change in profit rates will not have a significant impact on the net loss for the financial period.

**18. FINANCIAL INSTRUMENTS (CONT'D)****18.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)****(b) Profit Rate Risk (Cont'd)**Profit rate risk exposure

The following table analyses the Fund's profit rate risk exposure. The Fund's assets and liabilities are included at fair value and categorised by the earlier of contractual re-pricing or maturity dates.

|  | 0-3<br>months<br>RM | Non-profit<br>rate bearing<br>RM | Total<br>RM | Weighted<br>average<br>effective<br>profit<br>rate<br>% |

**(c) Particular Stock Risk**

Any major price fluctuations of a particular stock invested by the Fund may adversely or favourably impact the NAV of the Fund. However, due to the diversification nature of the unit trust, the impact would not be as major as investing in one particular stock.

Particular stock risk sensitivity

Particular stock risk sensitivity analysis is not presented as reasonable possible change in the price of any stock will not have a significant impact on the net loss for the financial period or equity of the Fund at the end of the reporting period.

Particular stock risk concentration

The Fund's concentration of equity price risk analysed by the Fund's equity instruments by sector is as follows:-

**18. FINANCIAL INSTRUMENTS (CONT'D)****18.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)****(c) Particular Stock Risk (Cont'd)**

The Fund's concentration of equity price risk analysed by the Fund's equity instruments by sector is as follows:-

**(d) Liquidity and Cash Flow Risks**

Liquidity and cash flow risks refer to the ease to convert investments into cash without significantly incurring loss in value. Stocks issued by smaller companies will face a greater chance of liquidity risk as compared to stocks issued by larger companies. When investing in stocks of smaller companies, the historical volume traded would be analysed to minimise the liquidity risk.

**(e) Fund Manager's Risk**

The performance of the Fund is also influenced by the expertise of the Fund Manager. The investment committee will oversee the activities and performance of the Fund Manager. There is also the risk that the Fund Manager does not adhere to the investment mandate of the Fund. The investment committee and the compliance unit hold primary functions to ensure that the Fund's investment strategy and mandate are adhered to. A compliance checklist and investment performance report shall be presented for review during the investment committee meeting.

**(f) Credit Risk**

The Fund's exposure to credit risk, or the risk of counterparties defaulting, arises mainly from amount owing by sundry receivables.

**Credit risk concentration profile**

The Fund does not have any major concentration of credit risk related to any individual customer or counterparty.

**18. FINANCIAL INSTRUMENTS (CONT'D)****18.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)****(f) Credit Risk (Cont'd)**Exposure to credit risk

As the Fund does not hold any collateral, the maximum exposure to credit risk is represented by the carrying amount of the financial assets as at the end of the reporting period.

Assessment of Impairment Losses

At each reporting date, the Fund assesses whether any of the financial assets at amortised cost, contract assets are credit impaired.

The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery (i.e. the debtor does not have assets or sources of income to generate sufficient cash flows to repay the debt) despite the fact that they are still subject to enforcement activities.

Receivables

The Fund applies the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all receivables.

The expected loss rates are based on the payment profiles of sales over a period of 12 months from the measurement date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle their debts.

The information about the exposure to credit risk and the loss allowances calculated under MFRS 9 for receivables is summarised below:-

|                        | Gross<br>Amount<br>RM | Individual<br>Impairment<br>RM | Collective<br>Impairment<br>RM | Carrying<br>Amount<br>RM |
|------------------------|-----------------------|--------------------------------|--------------------------------|--------------------------|
| <b>31.12.2023</b>      |                       |                                |                                |                          |
| Current (not past due) | 9,063                 | -                              | -                              | 9,063                    |
| <b>31.12.2022</b>      |                       |                                |                                |                          |
| Current (not past due) | 20,995                | -                              | -                              | 20,995                   |

Deposits with Licensed Banks and Cash at Bank

The Fund considers the banks and financial institutions have low credit risks. In addition, some of the bank balances are insured by Government agencies. Therefore, the Fund is of the view that the loss allowance is immaterial and hence, it is not provided for.

**18. FINANCIAL INSTRUMENTS (CONT'D)****18.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)****(g) Shariah Specific Risk**

The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah compliant. Should the situation arise, necessary steps shall be taken to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

**18.2 CAPITAL RISK MANAGEMENT**

The Manager of the Fund manages the capital of the Fund by maintaining an optimal capital structure so as to support its businesses and maximise unitholders value. To achieve this objective, the Manager may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to unitholders or undertake a unit splitting exercise to lower the value per unit of the Fund, thus the units become more affordable to raise more funds.

**18.3 CLASSIFICATION OF FINANCIAL INSTRUMENTS**
