This Product Highlights Sheet only highlights the key features and risks of this unlisted capital market product. Investors are advised to request, read and understand the disclosure documents before deciding to invest.

Product Highlights Sheet

Brief Information of the Product

Product Suitability

Key Product Features

ASTUTE DANA AL-SOFI-I

1. What is this product about?

This is an open-ended Shariah-compliant Equity Growth Fund, issued and managed by Astute Fund Management Berhad.

To seek capital appreciation by investing in Shariah-compliant equity or Shariah-compliant equity-related securities which adhere to Shariah principles.

2. Who is this product suitable for?

The Fund is suitable for investors who expect capital appreciation with medium to high-risk tolerance and wish to invest in accordance to the Shariah principle.

3. What am I investing in?

Launch Date	28 August 2004 (re-launch).
Initial Offer Price	RM0.2500 (applicable during the initial offer period of not more than 21 calendar days from the commencement date of the Fund).
Tenure	The Fund is an open-ended fund which means there is no maturity date and may only be terminated in accordance with the terms of the Prospectus and the provisions of the Deed.
Investment Strategy And Asset Allocation	<p>To invest in a diversified portfolio of Shariah-compliant equity and Shariah-compliant equity-related securities. The Manager may at its absolute discretion, invest up to a maximum of 95% of the Fund's NAV in Shariah-compliant equity and Shariah-compliant equity-related securities so as to maximise the returns of the Fund. A minimum of 70% of its NAV is invested in Shariah-compliant equity and Shariah-compliant equity-related securities. The Fund is however required to hold Islamic liquid assets at a minimum of 5% of its NAV at all times.</p> <p>As defensive consideration, the Manager will invest in a mix of Shariah-compliant equities, sukuk and Islamic money market instruments depending on the short-term and long-term market outlook. The Fund shall be invested in Shariah-compliant permitted investments which are subject to the review of the Manager as it deems fit from time to time. We adopt an active investment management approach that is not a 'frequent-trading' strategy", however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p>
Benchmark	FBMS.
Minimum Investment	<ul style="list-style-type: none"> i. Cash Plan - RM1,000.00 for initial and RM100.00 for additional investment. ii. Monthly Regular Savings Plan – RM100.00 for initial and additional investment. iii. EPF Plan – RM1,000.00 for initial and additional investment.

Maximum Approved Fund Size	675,000,000 units.
Distribution Policy	Distribution is at the discretion of the Manager. If income distributed, it will be automatically re-invested via issuance of additional Units in the Fund.

Note : Please refer to the Master Prospectus for further details of the fund

4. Who am I investing with?

The Manager	Astute Fund Management Berhad
The Trustee	Maybank Trustees Berhad
Auditor	Crowe Malaysia PLT
Taxation Adviser	Mazars Taxation Services Sdn Bhd
Solicitor	Wei Chien & Partners
Principal Banker	Malayan Banking Berhad
Shariah Advisor	i. Dr. Aida binti Othman ii. Dr. Ab. Halim bin Muhammad iii. Mohd Fadly bin Md. Yusoff

5. What are the possible outcomes of my investment?

By applying fundamental and technical analysis, the Manager aims to deliver reasonable returns in line with the investment objectives. With the minimum equity exposure of 70%, the Fund is expected to produce higher capital appreciation than income distribution. As the equity market is affected by many other factors, the net asset value of the Fund will also be affected by the volatility of the markets. Please note that the capital and returns of the Fund are not guaranteed.

Key Risks

6. What are the key risks associated with this product?

1. (a) General Investment Risks

Country Risk - Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the net asset value of the Fund or prices of units to fall.

Manager's Risk - This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Risk of Non-Compliance - Non-adherence with laws, rules, regulations, prescribed practices, internal policies and procedures may result in tarnished reputation, limited business opportunities and reduced expansion potential for the management company. Unit Holders' investment goals may also be affected if the Manager does not adhere to the investment mandate. The compliance unit of the management company, which oversees the entire compliance matters of the management company, will mitigate such risk.

Market Risk - Due to price fluctuations of securities/Shariah-compliant securities invested in by a Fund, the value of the Fund's investments may go up as well as down. The movement in securities/Shariah-compliant securities prices is influenced by a number of factors, which include changes in economic, political and social environments.

Key Risks (cont'd)

Loan Financing Risk - This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed/ financed money includes investors being unable to service the loan repayments/ financing payments. In the event units are used as collateral, an investor may be required to top-up the investor's existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan/ financing.

Returns Are Not Guaranteed Risk - There is no guarantee on the investment returns to Unit Holders. Unlike fixed deposits/ Islamic fixed deposits which carry a specific rate of return, the Fund does not provide a fixed rate of return. The income distribution is not guaranteed. There is a risk that there may not be any distribution of income for the particular Fund.

Inflation Risk - This is the risk that investors' investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

Liquidity Risk - Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavorable prices.

Futures/Islamic Futures Contract Risk - The Fund's investments in futures/ Islamic futures contracts may result in potentially unlimited losses that are greater than the amount deposited with its designated brokers. The Fund may also be forced to unfavourably liquidate its futures contract positions under certain market conditions which will adversely affect the performance of the Fund.

Credit and Default Risk - Credit risk relates to the creditworthiness of the issuers of the debt instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the debt instrument. In the case of rated debt instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a debt instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the debt instruments. This could adversely affect the performance of the Fund.

Individual Stock Risk - Risk that is specific to a stock and is not correlated with the specific risks of other stocks. Examples of such risks are poor management due to the departure of key management staff, loss of market share to competitors due to changes in the environment, and shifts in consumer demand due to changes in fashion and taste.

Warrants/Shariah-compliant Warrants Risk - Warrants risk have a limited life with a specified expiry date. After this date, warrants/ Shariah-compliant warrants can no longer be traded or exercised. Warrants/ Shariah-compliant warrants are worthless if they are not exercised before the expiry date. It is also important to note that warrants/ Shariah-compliant warrants experience time decay (erosion of their time value) throughout their life, and the rate of the decay accelerated as warrants Shariah-complaint warrants near expiry.

Suspension of Repurchase Request Risk - Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

(b) Specific Risks for investing in equities and equity-related securities

Market Risk - The market price of securities/Shariah-compliant securities owned by the Funds might go down or up, sometimes rapidly or unpredictably. Securities/Shariah-compliant securities may decline in value due to factors affecting the securities market generally or particular industries represented in the securities market. At times, the market environment which typically includes changes in regulations, politics, and the economy of the country would affect the market value of securities/Shariah-compliant securities. Market risk is also influenced by global economics and geopolitical developments. The Funds may mitigate the risk by engaging in derivatives/Islamic derivatives contracts like futures/Islamic futures and options/Islamic options to protect the value of underlying securities. In the event derivatives contracts are unavailable or prohibited, the Manager will sell down our equity investment and hold cash to preserve the capital during adverse market conditions.

Since the major portions of the Funds' investment are in the equity securities/Shariah-compliant equity securities, the Unit price of the Funds will fluctuate in line with market performance. Equity securities/Shariah-compliant equity securities generally have greater price volatility than fixed income securities or sukuk.

Key Risks (cont'd)

Individual Stock Risk - The Funds' portfolio comprises a spread of counters. However, the weak performance of individual counters invested can affect the overall NAV of the Funds and therefore the price of the Units. This risk may be mitigated through the well-diversified nature of the Funds' portfolio.

Warrant Risk - Warrants/Shariah-compliant warrants have a limited life, as denoted by the expiry date of each issue. After this date, warrants/Shariah-compliant warrants can no longer be traded or exercised. Hence, the warrants/Shariah-compliant warrants are worthless after their expiry date. It must also be noted that warrants/Shariah-compliant warrants experience time decay (erosion of their time value) throughout their life, and that the rate of this decay accelerates as warrants/Shariah-compliant warrants near expiry.

Negative Return Risk - The Fund will generate a negative return whenever the stock market is bearish. To minimise the negative return, the Manager will reduce the exposure of equity/Shariah-compliant equity investment in the Fund.

Reclassification of Shariah Status Risk - This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities

2. A unit trust consultant (UTC) may represent a company that distributes unit trust fund that uses a nominee system and the rights as a unit holder may be limited if an investor invest in unit trust funds through it. If the company that distributes unit trust fund uses a nominee system, to state if rights as a unit holder will be limited in any way.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not always possible to protect investments against all risks. The various asset classes generally exhibit different levels of risk.

The investments of the Fund carry risk and you are recommended to read the whole Master Prospectus to assess the risk of the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

Fees & Charges

7. What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before contributing to the Fund.

Sales Charge	5.2632% of the NAV per unit.
Redemption Charge	Nil.
Switching Fee	3 free switches per account are allowed in each calendar year. Further switches will be subject to a 1% charge based on proceeds of redemption .
Transfer Fee	RM5 per transfer.
Annual Management Fee	1.95% p.a. of the NAV (before deducting the management fee and trustee fee).
Trustee Fee	0.05% (before deducting the management fee and trustee fee for the relevant day, subject to a minimum of RM16,000 p.a.)

The sales charge will be added to the NAV in deriving the total cost to the investors.

The computation is based on the NAV per Unit of the Fund that has not been rounded up.

**YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR
ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT**

Valuations and Exiting from Investment

8. How often are valuations available?

The Fund will be valued on every Business Day and the Net Asset Value (NAV) per Unit will be published on the Manager's website at www.astutefm.com.my. However, if the investments of the Fund are in foreign markets, the daily price of the Fund for a particular Business Day will not be published on the next day but will instead be published the next following day (i.e. the price will be available two (2) days later). You may also obtain the NAV per unit of the fund from our customer service at 03-20959999 or email at enquiry@astutefm.com.my.

9. How can I exit from this investment and what are the risks and costs involved?

You may request to redeem your investment in the Fund at any point in time by completing the Quickform and returning it to the Manager on any Business Day between 9.00 a.m. to 4.00 p.m. Payment will be made to you within 7 Business days from the day the redemption request is received by the Manager and provided that all documentations are completed and verifiable.

Cooling off-period

The cooling-off period is applicable to all first time investors except for corporation/institution, staff of the Manager and persons registered with a body approved by the SC to deal in unit trusts.

The cooling off right must be exercised within six (6) Business Days commencing from the date of receipt of the application for Units by the Manager. The refund for every Unit held by the investor pursuant to exercising his cooling off right shall be the sum of the NAV per Unit on the day the Units were first purchased and sales charge per Unit originally imposed on the day the Units were purchased.

Switching is strictly prohibited during cooling off period.
