MARKET REVIEW

Global financial markets in 1H26 swung sharply between risk-off and risk-on sentiment. The first quarter was rattled by the nomination of Kevin Warsh as the next Fed Chair in January and the outbreak of the Middle East conflict on 28 February. The second quarter turned decisively positive as the conflict de-escalated and markets refocused on artificial intelligence.

US markets delivered strong returns despite the volatility. The S&P 500 gained 8.8% in 1H26. The 1Q26 earnings season delivered an 85% beat rate, the highest since 2021. US hyperscalers raised 2026 capex guidance to USD700 billion in 2Q26. This reinforced investor confidence that the AI buildout remained intact despite the Middle East conflict. The Federal Reserve held its policy rate at 3.50%–3.75% through June. Headline CPI rose to 4.2% YoY in May. That was its fastest pace in three years. Core CPI rose to 2.9%. Sticky inflation pushed money markets to reprice. They moved from expecting rate cuts to pricing a possible hike. CME FedWatch data shows a 70.6% probability of a hike by September.

Emerging markets were volatile but ultimately the top-performing segment. Asian equities fell sharply in March on the Iran war. They recovered as the AI trade reasserted itself. The MSCI Emerging Markets Index rose 22.8% over 1H26. The MSCI AC Asia ex-Japan Index rose 25.3%. Korea's KOSPI more than doubled. It rose 101% as SK Hynix and Samsung Electronics both crossed USD1 trillion in market value. Japan's Nikkei rose 39.2% and Thailand's SET rose 26.3%.

Malaysia's KLCI declined 1.2% in 1H26. Persistent foreign selling weighed on the market. Net outflows totalled RM3.1 billion over the half. That pushed foreign shareholding to a record low of 18.3% by June. This divergence from the broader EM rally reflects limited index exposure to technology and export sectors. The FBM Mid 70 Index gained 6.5% in 1H26. It outpaced the KLCI. This is one reason we continue to find more value outside the large-cap index.

MARKET OUTLOOK

We remain constructive on the market and net buyers on weakness. Consensus estimates for MSCI World 2026 earnings growth stand at 19%. That is up from 12% as of end-March 2026. Emerging markets remain structurally under-owned. MSCI EM's market cap is only around 30% of MSCI World's versus a 40% peak in 2020. This leaves room for further re-rating if flows return.

The main risk is a hawkish shift in Fed policy. Strong US payrolls and higher 10-year Treasury yields have pushed money markets to price a possible rate hike over the next 12 months. That is a reversal from the easing bias seen earlier this year. A stronger dollar would follow. That would be a headwind for emerging markets including Malaysia.

In Malaysia, we expect support from resilient domestic consumption and a tourism uplift from Visit Malaysia 2026. A renewed industrialisation drive should also help. This is anchored by the National Energy Transition Roadmap, the Johor–Singapore Special Economic Zone and the 13th Malaysia Plan. State elections are due in Johor on 11 July and in Negeri Sembilan on 1 August. Investors will watch these as an early read on sentiment ahead of the next general election. The Value-Up programme remains a potential re-rating catalyst. However, its voluntary nature may limit near-term impact.

FBM KLCI valuations remain undemanding, with FY26 PER of 15.0x (10Y range 12.5x–21.7x), PBV of 1.5x (10Y range 1.2x–1.9x), and a forecast dividend yield of 4.3% (10Y range 2.7%–4.7%) [Source: Bloomberg].

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 30 June 2026 and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and IFRS Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Fund in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

ASTUTE DANA ASLAH (CONT'D)**

Information Other than the Financial Statements and Auditors' Report Thereon (Cont'd)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager and Trustee for the Financial Statements

The Manager of the Fund is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and IFRS Accounting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund, or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF
ASTUTE DANA ASLAH (CONT'D)**

Auditors' Responsibilities for the Audit of the Financial Statements (Cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Subsequent to the initial recognition, all financial assets are measured at amortised cost less any impairment losses.

(c) Equity (Cont'd)

NAV Attributable to Unitholders

NAV attributable to unitholders represents the total NAV in the statement of financial position, which is carried at the redemption amount that would be payable at the end of the reporting period if the unitholders exercised the right to redeem units of the Fund.

Units are created or cancelled at prices based on the Fund's NAV per unit at the time of the creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to the unitholders with the total issued and paid-up units as of that date.

Distributions

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a reduction from realised reserves. A proposed distribution is recognised as a liability in the period in which it is approved.

3.3 CLASSIFICATION OF REALISED AND UNREALISED GAINS AND LOSSES

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposal of financial instruments classified as fair value through profit or loss are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.4 INCOME TAXES

Current tax assets and liabilities are expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss (either in other comprehensive income or directly in changes in NAV).

7.5 NOTES TO THE AUDITED FINANCIAL STATEMENTS

For the Financial Year Ended 30 June 2026

20. FINANCIAL INSTRUMENTS

The activities of the Fund are exposed to a variety of market risk (including foreign currency risk, interest rate risk and equity price risk), credit risk, liquidity risk and Shariah status reclassification risk. The overall financial risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Fund.

20.1 FINANCIAL RISK MANAGEMENT POLICIES

The policies in respect of the major areas of treasury activity are as follows:-

(a) Foreign Currency Risk

The Fund does not have any transactions or balances denominated in foreign currencies and hence is not exposed to foreign currency risk.

(b) Interest Rate Risk

Cash and sukuk are particularly sensitive to movements in interest rates. When interest rate rises, the return on cash and the value of sukuk will rise whilst it will be vice versa if there is a fall, thus affecting the NAV of the Fund.

The Fund's Islamic fixed deposits with licensed banks are carried at amortised cost. Therefore, they are not subject to interest rate risk as defined in MFRS 7 since neither the carrying amounts nor the future cash flows will fluctuate because of a change in market interest rates.

The Fund's Islamic deposits with financial institutions are usually rolled-over on a daily/monthly basis.

It is the Fund's policy not to enter into interest rate swap arrangements.

Interest rate is a general economic indicator that will have an impact on the management of the Fund. It does not in any way suggest that the Fund will invest in conventional financial instruments. All investments carried out for the Fund including placements and deposits are in accordance with Shariah.

Interest rate risk sensitivity

Interest rate risk sensitivity is not presented as a reasonable possible change in interest rates will not have a significant impact on the net income for the financial year.

(c) Particular Stock Risk

Any major price fluctuations of a particular stock invested by the Fund may adversely or favourably impact the NAV of the Fund. However, due to the diversification nature of the unit trust, the impact would not be as major as investing in one particular stock.

Particular stock risk sensitivity

Particular stock risk sensitivity analysis is not presented as reasonable possible change in the price of any stock will not have a significant impact on the net income/(loss) for the financial year.

Particular stock risk concentration

The Fund's concentration of equity price risk analysed by the Fund's equity instruments by sector is as follows:-

20.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(d) Liquidity and Cash Flow Risk

Liquidity and cash flow risks refer to the ease to convert investments into cash without significantly incurring loss in value. Stocks issued by smaller companies will face a greater chance of liquidity risk as compared to stocks issued by larger companies. When investing in stocks of smaller companies, the historical volume traded would be analysed to minimise the liquidity risk.

(e) Fund Manager's Risk

The performance of the Fund is also influenced by the expertise of the Fund Manager. The investment committee will oversee the activities and performance of the Fund Manager. There is also the risk that the Fund Manager does not adhere to the investment mandate of the Fund. The investment committee and the compliance unit hold primary functions to ensure that the Fund's investment strategy and mandate are adhered to. A compliance checklist and investment performance report shall be presented for review during the investment committee meeting.

(f) Credit Risk

The exposure to credit risk, or the risk of counterparties defaulting, arises mainly from amount owing by sundry receivables and amount owing by stockbrokers.

(i) Credit Risk Concentration Profile

The Fund does not have any major concentration of credit risk related to any individual customer or counterparty.

(ii) Maximum Exposure to Credit Risk

As the Fund does not hold any collateral, the maximum exposure to credit risk is represented by the carrying amount of the financial assets as at the end of the reporting period.

20. FINANCIAL INSTRUMENTS (CONT'D)

20.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(f) Credit Risk (Cont'd)

(iii) Assessment of Impairment Losses

At each reporting date, the Fund assesses whether any of the financial assets at amortised cost are credit impaired.

The gross carrying amounts of financial assets are written off against the associated impairment, if any, when there is no reasonable expectation of recovery despite the fact that they are still subject to enforcement activities.

Receivables

The Fund applies the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all receivables. No expected credit loss is recognised as it is negligible.

A financial asset is credit impaired when the receivable is in significant financial difficulties.

The Fund considers a receivable to be in default when the receivable is unlikely to pay its obligation to the Fund in full or is more than 90 days past due.

Islamic Deposits with Licensed Banks and Bank Balance

The Fund considers the licensed banks have low credit risks. In addition, some of the bank balances are insured by Government agencies. Therefore, the Fund is of the view that the loss allowance is immaterial and hence, it is not provided for.

20.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

(g) Shariah status reclassification risk

This risk refers to the risk that the currently held Shariah-compliant equity securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council ("SAC") of the Securities Commission ("SC"). If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

(i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the reclassification effective date by the SAC of the SC. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the reclassification effective date. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the reclassification effective date should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser;

(ii) to hold such securities if the value of the said securities is below the investment cost on the reclassification effective date until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser; or

(iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

Sukuk or Islamic deposits or Islamic collective investment schemes

This risk refers to the risk of a possibility that the currently held sukuk or Islamic deposits or Islamic collective investment schemes invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such bond or deposits or collective investment schemes.

7.5 NOTES TO THE AUDITED FINANCIAL STATEMENTS

For the Financial Year Ended 30 June 2026

20.2 CAPITAL RISK MANAGEMENT

The Manager of the Fund manages the capital of the Fund by maintaining an optimal capital structure so as to support its businesses and maximise unitholders value. To achieve this objective, the Manager may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to unitholders or undertake a unit splitting exercise to lower the value per unit of the Fund, thus the units become more affordable to raise more funds.
