## **MARKET REVIEW (JUL-2023 TO JUN-2024)**

The US Federal reserve hiked interest rates from 4.5% in February 2023 to 5.5% in July 2023. The robust US economy fuelled expectations of “higher for longer” interest rates. This put pressure on Asian currencies such as the Ringgit which fell to a 25 year low of RM4.79 in Sep-24. The latter in turn weighed down on Bursa Malaysia. Overall, the Ringgit declined by 1.0% against the USD to 4.72 in the period under review. The strong USD was a headwind for Asian equity markets.

The US 10-year bond yield ended 2023 at 3.88%, approximately the same level as the start of the year. The latter rose in 2024 due to a resilient US labour market. The 10 year yield peaked at 4.70% in Apr-24 before easing to 4.40% at the end of Jun-24. The resilient US economy provided strong support for US equity markets.

Between July 2023 and June 2024, Bank Negara kept the Overnight Policy Rate (“OPR”) at 3.0%. The KLCI declined by 2% to 1,455 in 2023. This was due to a lack of positive catalysts, unexciting earnings growth and a weak Ringgit. In 2023, foreigners net sold approximately RM2.3 billion worth of Malaysia equities. However, Bursa Malaysia rebounded by 9.3% in the first 6 months of 2024. This was driven by a confluence of data centre investments, robust FDIs, improved earnings outlook, reasonable valuations and local institutional buying.

MSCI Asia ex-Japan (MXAJ) rose 3.6% in 2023 and a further 8.9% in the first 6M of 2024. The key gainers were Taiwan, India and Korea in 1H 2024. China rallied by 20% from its low in February 2024 as sentiment on the equity market improved. In 2024, Beijing had rolled out a series of measures to revive the stock market and the economy including limiting short selling and promoting a new approach to real estate development while increasing construction spending. Also, the North Asian markets benefit from a bottoming out and anticipated recovery in the technology sector.

## **MARKET OUTLOOK**

US 1Q24 GDP grew by a tepid +1.4% QoQ (3rd revision) in 1Q24. Recent US data show signs of a "Goldilocks" economy. Non-farm payrolls for Jun-24 came in at 206K, a tad higher than consensus. However, the surprise was the US unemployment rate for Jun-24 which came in at 4.1% (the highest since Oct-21). Other signs of cooler activity came from the core PCE numbers which increased by 0.083% in May-24 - the lowest increase since Nov-2020. Finally, June's core CPI of 0.1% MoM for Jun-24 was below consensus expectations of 0.20%. The recent flow of “cooler” data in the US economy raised hopes of a FED rate cut as early as Sep-2024 and provided conditions for equity markets to stay buoyant.

Given that developed economies had raised rates by a wider margin than Asian economies, we expect the former’s rate cuts to be relatively more significant. In our view, this will eventually lead to a weaker USD and stronger Asian currencies moving forward.

We believe the technology sector in Asia will continue to do well. The bottoming out of the export cycle and the recovery in semiconductor demand led by artificial intelligence will support valuations. MSCI AC Asia ex-Japan is trading at a 2024 PER of 13.9x which appears reasonable vs its 10Y range 11.5x to 20.5x [Source: Bloomberg].

For Malaysia, we see a convergence in positive thematises such as data centre investments, FDIs, supply chain relocation, Johor special economic zone and recovery in E&E exports. These themes will support the KLCI for the remainder of 2024.

Finally, we believe the KLCI's valuations remain undemanding i.e. 2024 PER of 14.7x (10Y range 12.4x to 21.7x), PBR of 1.4x (10Y range 1.2x to 2.3x) and 2024 forecast DY of 4.1% (10Y range 2.7% to 5.3%) [Source: Bloomberg]. Our strategy is to invest in companies which have a combination of re-rating potential, strong management and positive catalysts such as earnings, dividends or corporate restructuring. We believe the Malaysia market is capable of trending higher in the coming months.

#### **Information Other than the Financial Statements and Auditors' Report Thereon (Cont'd)**

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of the Manager and Trustee for the Financial Statements**

The Manager of the Fund is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intend to liquidate the Fund, or to cease operations, or have no realistic alternative but to do so.

### INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF ASTUTE DANA AL-SOFI-I FUND (CONT'D)

#### **Auditors' Responsibilities for the Audit of the Financial Statements (Cont'd)**

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The financial statements of the Fund are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under material accounting policy information, and in compliance with Malaysian Financial Reporting Standards (“MFRSs”) and International Financial Reporting Standards (“IFRSs”).

- 2.1 During the current financial year, the Fund has adopted the following new accounting standards (including the consequential amendments, if any):-

### **MFRSs and/or IC Interpretations (Including The Consequential Amendments)**

The Amendments to MFRS 101 ‘Disclosure of Accounting Policies’ did not result in any changes to the existing accounting policies of the Fund. The fund has made updates to the accounting policies presented in Note 3 to the financial statements in line with the amendments.

## 2. BASIS OF PREPARATION (CONT'D)

- 2.2 The Fund has not applied in advance the following accounting standards and interpretations (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board (MASB) but are not yet effective for the current financial year:-

MFRS 18 'Presentation and Disclosure in Financial Statements' will replace MFRS 101 'Presentation of Financial Statements' upon its adoption. This new standard sets out the new requirements for the presentation and disclosure of information in the primary financial statements and notes. The potential impact of the new standard on the financial statements of the Fund has yet to be assessed.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION

#### 3.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the process of applying the accounting policies of the Fund, the management is not aware of any judgements that have significant effects on the amounts recognised in the financial statements.

There are also no assumptions concerning the future and other key sources of estimation of uncertainties at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### 3.2 FINANCIAL INSTRUMENTS

##### (a) Financial Assets

###### Financial Assets Through Profit or Loss

The financial assets are initially measured at fair value. Subsequent to the initial recognition, the financial assets are remeasured to their fair values at the reporting date with fair value changes recognised in profit or loss. The fair value changes do not include profit income.

###### Financial Assets at Amortised Cost

The financial assets are initially measured at fair value plus transaction costs except for trade receivables without significant financing component which are measured at transaction price only. Subsequent to the initial recognition, all financial assets are measured at amortised cost less any impairment losses.

##### (b) Financial Liability

###### Financial Liabilities at Amortised Cost

The financial liabilities are initially measured at fair value less transaction costs. Subsequent to the initial recognition, the financial liabilities are measured at amortised cost.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

#### 3.2 FINANCIAL INSTRUMENTS (CONT'D)

##### (c) Equity Instruments

###### Unitholders' Capital

Unitholders' capital are classified as equity and recorded at the proceeds received, net of directly attributable transaction costs.

The unitholders' contributions to the Fund meet the criteria of puttable instruments classified as equity instruments under MFRS 132 - Financial Instruments Presentation. Those criteria include:-

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based on substantially on the profit or loss of the Fund.

###### NAV Attributable to Unitholders

NAV attributable to unitholders represents the total NAV in the statement of financial position, which is carried at the redemption amount that would be payable at the end of the reporting period if the unitholders exercised the right to redeem units of the Fund.

Units are created or cancelled at prices based on the Fund's NAV per unit at the time of the creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to the unitholders with the total issued and paid-up units as of that date.

###### Distributions

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a reduction from realised reserves. A proposed distribution is recognised as a liability in the period in which it is approved.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

#### 3.3 CLASSIFICATION OF REALISED AND UNREALISED GAINS AND LOSSES

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposal of financial instruments classified as part of at fair value through profit or loss are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

#### 3.4 INCOME TAXES

Current tax assets and liabilities are expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss (either in other comprehensive income or directly in changes in NAV).

#### 3.5 INCOME RECOGNITION

##### (a) Dividend Income

Dividend income from investments is recognised when the right to receive dividend payment is established.

##### (b) Realised Gains or Losses on Sale of Investments

Realised gain or loss on the sale of an investment is recognised based on the sale proceeds less cost which is determined on the weighted average cost basis.

##### (c) Profit Income

Profit income is recognised on a time proportion basis taking into account the principal outstanding and the effective profit rates applicable.

#### 4. MANAGEMENT FEE

Clause 13.1 of the Deed provides that the Manager is entitled to a management fee computed daily on the net asset value attributable to unitholders of the Fund at a rate not exceeding 2.0% (2023 - 2.0%) per annum. The management fee recognised in the financial statements is based on 1.5% (2023 - 1.5%) per annum for the financial year net of the management fee rebate on the collective investment scheme as agreed by the Trustee and the Manager as follows:

<b>Name of Fund</b>	<b>Rate p.a.</b>
Astute Dana Al-Kanz	0.20%

#### 5. TRUSTEE'S FEE

## 21. FINANCIAL INSTRUMENTS

The activities of the Fund are exposed to a variety of market risk (including foreign currency risk, profit rate risk and equity price risk), credit risk and liquidity risk. The overall financial risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance.

### 21.1 FINANCIAL RISK MANAGEMENT POLICIES

The policies in respect of the major areas of treasury activity are as follows:-

(a) Foreign Currency Risk

The Fund does not have any transactions or balances denominated in foreign currencies and hence is not exposed to foreign currency risk.

## 21. FINANCIAL INSTRUMENTS (CONT'D)

### 21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

#### (b) Profit Rate Risk

Cash and other fixed income securities are particularly sensitive to movements in profit rates. When interest rate rises, the return on cash and the value of fixed income securities will rise whilst it will be vice versa if there is a fall, thus affecting the NAV of the Fund.

The Fund's shariah-based deposits with licensed banks are carried at amortised cost. Therefore, they are not subject to profit rate risk as defined in MFRS 7 since neither carrying amounts nor the future cash flows will fluctuate because of a change in market interest rates.

The Fund's deposits with financial institutions are usually rolled-over on a daily/monthly basis.

It is the Fund's policy not to enter into interest rate swap arrangements.

#### Profit rate risk sensitivity

Profit rate risk sensitivity is not presented as a reasonable possible change in profit rates will not have a significant impact on the net income for the financial year.

### 21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

#### (c) Particular Stock Risk

Any major price fluctuations of a particular stock invested by the Fund may adversely or favourably impact the NAV of the Fund. However, due to the diversification nature of the unit trust, the impact would not be as major as investing in one particular stock.

#### Particular stock risk sensitivity

Particular stock risk sensitivity is not presented as a reasonable possible change in any of the stock prices will not have a significant impact on the net income for the financial year.

#### Particular stock risk concentration

The Fund's concentration of price risk analysed by the Fund's marketable instruments by sector is as follows:-

## 21. FINANCIAL INSTRUMENTS (CONT'D)

### 21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

#### (d) Liquidity and Cash Flow Risks

Liquidity and cash flow risks refer to the ease to convert investments into cash without significantly incurring loss in value. Stocks issued by smaller companies will face a greater chance of liquidity risk as compared to stocks issued by larger companies. When investing in stocks of smaller companies, the historical volume traded would be analysed to minimise the liquidity risk.

#### (e) Fund Manager's Risk

The performance of the Fund is also influenced by the expertise of the Fund Manager. The investment committee will oversee the activities and performance of the Fund Manager. There is also the risk that the Fund Manager does not adhere to the investment mandate of the Fund. The investment committee and the compliance unit hold primary functions to ensure that the Fund's investment strategy and mandate are adhered to. A compliance checklist and investment performance report shall be presented for review during the investment committee meeting.

#### (f) Credit Risk

The exposure to credit risk, or the risk of counterparties defaulting, arises mainly from amount owing by sundry receivables.

##### (i) Credit Risk Concentration Profile

The Fund does not have any major concentration of credit risk related to any individual customer or counterparty.

##### (ii) Maximum Exposure to Credit Risk

As the Fund does not hold any collateral, the maximum exposure to credit risk is represented by the carrying amount of the financial assets as at the end of the reporting period.

## 21. FINANCIAL INSTRUMENTS (CONT'D)

### 21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

#### (f) Credit Risk (Cont'd)

##### (iii) Assessment of Impairment Losses

At each reporting date, the Fund assesses whether any of the financial assets at amortised cost are credit impaired.

The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery against the associated impairment, if any, despite the fact that they are still subject to enforcement activities.

##### Receivables

The Fund applies the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all receivables. No expected credit loss is recognised as it is negligible.

A financial asset is credit impaired when the receivable is in significant financial difficulties.

The Fund considers a receivable to be in default when the receivable is unlikely to repay its debt to the Fund in full or is more than 90 days past due.

##### Deposits with Licensed Banks and Bank Balances

The Fund considers the licensed banks have low credit risks. In addition, some of the bank balances are insured by Government agencies. Therefore, the Fund is of the view that the loss allowance is immaterial and hence, it is not provided for.

## 21. FINANCIAL INSTRUMENTS (CONT'D)

### 21.1 FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

#### (g) Shariah Specific Risk

The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah compliant. Should the situation arise, necessary steps shall be taken to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

### 21.2 CAPITAL RISK MANAGEMENT

The Manager of the Fund manages the capital of the Fund by maintaining an optimal capital structure so as to support its businesses and maximise unitholders value. To achieve this objective, the Manager may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to unitholders or undertake a unit splitting exercise to lower the value per unit of the Fund, thus the units become more affordable to raise more funds.
